

HOUSEHOLD INVENTORY

- Complete this inventory for all of your household goods. Use additional sheets of paper if necessary.
- Estimate value if sold at a garage sale or through a newspaper classified ad. Describe an individual item only if worth \$300 or more. The entry for "value" refers to all goods in the category, not just those described.
- Indicate whether any item worth \$300 or more was purchased with a credit card, if the purchase price is still part of an unpaid credit card balance.
